To Whom it may concern!

I tried to call 8004249393 on the 10-22&23 when person come on they can't hear me. Their phones cut out.

I have a 2005 Mercury Marquis LS. my air bag light came on, and doesn't go off. Ford dealer told me the modigal is out, cost \$1500.00 to replace. I have less than 65000 miles.

Talk to ² other owners of this model, they have same problem. I has less than 10,000 miles the other ~~has~~ has 90000 miles.

We are wondering how many of this model, have been in accidents, and the air bags didn't work.

None of us do computers,

Yours Truly

P.S. I would like someone to let me know.
