TO: NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

RE: "MICHELIN TIRES" - JEEP GRAND CHEROKEE 2015"
"RECALLS" "DEFECTIVE" ...TIRES!
VIN: 1C4RJFBG5FC [REDACTED]

This is notice to you and a complaint directed against the above-referenced
"MICHELIN" tires now on my vehicle as also referenced above.

NOV 18 2015

Please confirm the following to me regarding these tires: "All complaints, recalls, defects, accidents and any other information on these Michelin tires as is related to their performance; and, please specify all care characteristics for the best operation and performance of these tires. Also, please specify all conditions to be aware of that are involved in poor performance of defects within these tires. Also, the "AGE" of these tires.

My "MICHELIN TIRES" have the following identifications: C6274A (DOT AP5E 00BX0615), P265 60R18. 109T. "Michelin Green." Tubeless Radial X. Latitude Tour.

Please process the following requests with a formal thorough research of all of the databases available to you - I do not have access to a computer for these searches.

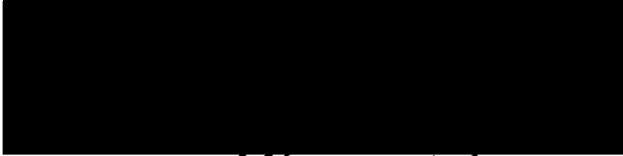

My complaint against my "MICHELIN" TIRES is constant loss of air pressure, uneven ride, bumpy ride, loss of traction in wet and snowy weather, un-normal traction in braking in dry weather, and extremely bumpy riding over un-flat surfaces and uneven wear and tear. My "MICHELIN" TIRES just do not appear to be "overall" performing at peak levels as advertised by the manufacturer - MICHELIN."

Sincerely,

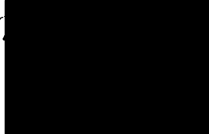

[REDACTED]
