**L Remarks**

Local Option

Called for a vehicle fire in a detached parking garage structure. On arrival, crew was met by workers who stated there was a car on fire on the 2nd level of the open-air parking deck. Crews utilized ladder to gain access to the 2nd floor of the structure and then deployed a 200 foot 1 3/4" attack line to extinguish the fire. Fire did not extend to other vehicles. Prior to arrival, workers used a number of dry chemical extinguishers to try and keep fire in check. After initial attack on fire, crew broke windows of front doors to check for extension into passenger compartment. Fire did not extend and was contained in the engine compartment. Utilized rotary saw to remove hood from vehicle and do final wet down of the area. Crews confirmed that no extension had occurred to the structure or the exposure vehicles.

Response Package for this incident included the following fire companies:

Engine 1 (Attack)  
Engine 3 (Attack-Support)  
Truck 2 (Support)  
Medic 5 (Support/Medical)  
Battalion 3 (Command)  
Battalion 5 (Safety)

IMS was utilized throughout the incident and fireground companies communicated on-scene radio traffic via Fireground Red tactical channel.

No civilian or firefighter injuries were reported at this incident.
