Lamberton, Ma [REDACTED]

We have a 2015 Chrysler 200.
In October we got a safety
recall notice. So we called
Olivia Chrysler where we got
the car and made an appointment
to get it fixed on November 4th.
They called back to tell us
they did not have - the electrical
connector to fix it. We have
repeatedly called to get this
taken care of - however they
keep telling us they do not have
the parts.

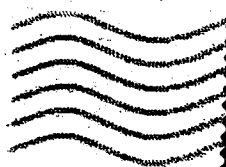

It sure seems to me that on
a re-call that the Dealers should
get what they need to correct the
problem a sure lot sooner!

Olivia Chrysler at Olivia, Ma has
been unable to remedy this defect.
