Re: Recall/ P80/NHTSA 14V-795 2006 Dodge 3500 Diesel VIN # 3D7MX49C26G [REDACTED]

Enclosed are our receipts and email letter from our truck repairman showing that he already did the repairs prior to the recall. I've also enclosed the invoice from our Dodge Dealer when they tried to do the recall repairs.

Thank you and let me know if you have any questions.

CLUTCH INTERLOCK SWITCH

P80 / NHTSA 14V-795

IMPORTANT SAFETY RECALL

This notice applies to your vehicle (VIN: 3D7MX49C26G [redacted]).

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Dear [redacted]

FCA US LLC has decided that a defect, which relates to motor vehicle safety, exists in certain **2006 and 2007 model year Dodge Dakota and Dodge RAM trucks equipped with a manual transmission.**

The problem is... The clutch interlock switch on your truck may contain a return spring that fatigues. A fatigued clutch interlock switch return spring could allow the driver to engage the engine starter motor without the clutch pedal being depressed. Engaging the engine starter motor with the transmission in gear and the clutch engaged could result in unintended vehicle movement and cause a crash without warning.

What your dealer will do... FCA will repair your vehicle free of charge (parts and labor). To do this, your dealer will replace the clutch interlock switch. The work will take about one hour to complete. However, additional time may be necessary depending on service schedules.

What you must do to ensure your safety... Simply contact your **Chrysler, Jeep, Dodge or RAM dealer** right away to schedule a service appointment. Ask the dealer to hold the part for your vehicle or to order it before your appointment. **Please bring this letter with you to your dealer.**

If you need help... If you have questions or concerns which your dealer is unable to resolve, please contact the FCA Group Recall Assistance Center at either **recalls.mopar.com** or 1-800-853-1403.

Please help us update our records by filling out the attached prepaid postcard if any of the conditions listed on the card apply to you or your vehicle. If you have further questions go to **recalls.mopar.com**.

If you have already experienced this specific condition and have paid to have it repaired, you may mail your original receipts and proof of payment to the following address for reimbursement consideration:
FCA US Customer Assistance, P.O. Box 21-8004, Auburn Hills, MI 48321-8007, Attention: Recall Reimbursement. Once we receive and validate the required documents, reimbursement will be sent to you within 60 days. If you've had previous repairs and/or reimbursement you may still need to have the recall repair performed on your vehicle.

If your dealer fails or is unable to remedy this defect without charge and within a reasonable time, you may submit a written complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Ave., S.E., Washington, DC 20590, or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to <http://www.safercar.gov>.

We're sorry for any inconvenience, but we are sincerely concerned about your safety. Thank you for your attention to this important matter.

Ask your dealer about the following notification(s). Our records indicate that your vehicle also requires repair for notification(s): R25 P81 N62

Customer Services / Field Operations

ANDREW GIVAN <carbonvalleygarage@gmail.com> Today at 4:32 PM

To [REDACTED]

looked up the invoices, it looks like we did three of the four tie rod ends on two separate invoices, two were done on invoice [REDACTED] and one was done on invoice [REDACTED]. The clutch that we installed included the hydraulic system as it was a whole kit invoice [REDACTED].

Thank You
Andrew
