01-28-16 Administrator, National Highway Safety Administration

I received a safety recall notice for my 2007
Corolla VIN JTDBR38E 370 [REDACTED]. I called
McKinnon Toyota in Clanton, Alabama 1-800-239-3430.
The date I called them was 07-30-15. The lady
that answered the phone told me they were so
far behind on making these recall notice repairs
that she could only take my VIN#, name, and telephone
number/address - they would contact me when they
received the replacement air bags so that I could
then bring my Corolla in to be repaired.
I asked her if it was safe to keep driving my
car without having the safety recall problem
corrected. She informed me it was safe.

It is now 01-28-16 - and I have not heard
anything back from McKinnon Toyota in Clanton,
Alabama. Common sense tells me it is NOT
SAFE to keep driving my car without the problem
being fixed.

Is there anything that can be done so that
I can get my Corolla airbag recall
problem fixed? I need someone to help me.

Sincerely,

[REDACTED]
Columbiana, Alabama
