The Privacy Act of 1974-Public Law 93-579 This information is requested pursuant to authority vested in the National Highway Traffic Safety Act and subsequent amendments. You are under no obligation to respond to this questionnaire. Your response may be used to assist the NHTSA in determining whether a Manufacturer should take appropriate action to correct a safety defect. If the NHTSA proceeds with administrative enforcement or litigation against a manufacturer, your response, or a statistical summary thereof, may be used in support of the agency's action.

Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

During Forward Acceleration the Car stayed at that RPM Level without returning to normal. The Brakes were applied in an attempt to stop the car, it only slowed forward progress at which time I placed the car in neutral and the motor revved up to $\approx$ 3000 RPM's. If some one had been in front of the car a child on a bicycle another car etc... I would have hit them.
