RE: Recall S43 on my 2004 Dodge Ram Quad Cab (VIN: 1D7HA18NX4J1 [REDACTED])

Dear Sir or Madam:

About 3 months ago, I received a notice from Fiat Chrysler (FCA) regarding an important safety recall on my above noted 2004 Dodge Ram. I called the FCA Recall Assistance Center today and spoke with a representative regarding this recall and I was informed that the parts to address this problem would likely not become available until the 1st quarter of 2017.

I must say this timetable for repair seems unacceptable. I have been wanting to sell this vehicle privately, and I was hoping that this recall issue would be resolved by now so as not to be a deterrent to potential buyers.

Please advise.

Regards,

[REDACTED]
