DEC 01 2016

Dear Honorable Rep. Frankel...on November 9, 2016, I contacted the National Highway Traffic Safety Administration, about my 2005 Maserati, tracking number is 10925141. The frame appears to be falling apart and I contacted NHTSA, and they said they would look into it but I have not heard back from them as of yet. I believe this automobile is unsafe to drive and I believe this is a manufacturers problem, and I would like to see if there is any possibility, that your office, could intercede on my behalf to contact NHSTA, to see if they could resolve this issue with my car. I took this automobile to two different repair shops and they both said this is a safety issue. I would appreciate any assistance you can help me to resolve this problem. Sincerely, [REDACTED]

REP. LOIS FRANKEL
