Narrative Description of Incident(s), Failure(s), Crash(es), and Injury(ies)

In November the Airbag light came on. I had the vehicle scanned at a ASE mechanic. Code B49 came up which referred to OCS. Occupant Seat mesh sensor. I called (Carl Gregory) of Brunswick GA. they wanted to charge me \$135.00 to do another scan after I had told them I had it done and gave the Service Advisor the code. I asked would it be covered by recall or Campaign he said no. I asked to speak to manager which he called a day later. I asked him the same question. Is it covered and why, do I have to pay for a scan. I said to me your is a money pit that will need repair all its life. I said ok so you wont cover repair by warranty he said NO I said I am filing a report then. So no more business with them. I called Key Hyundai of JAX FL. They covered everything the scan, repairs and rental car for 5 days. Carl Gregory of Brunswick Sucks.
