Incident Description: I was injured in a accident due to these tires. I have been having problems with these tires ever since I got them. I told wheel works and they told me that they needed to be worn Putin order for my car to stop shaping on the freeway. They also said that they were getting a lot of other complaints from other clients about these tires and how it also shook their car as they drove. My back tire blew out and I lost control on the freeway overpass. I nearly died! There was no object obstructing my passage, nor was I speeding.
