IMPORTANT SAFETY RECALL

**2009-2010 Mazda6 Sophisticated Air Bag Sensor (SAS) Unit Concern
Voluntary Safety Recall 9816H
NHTSA Campaign No. 16V-594**

October 2016

This notice applies to your vehicle: VIN 1YVHP82A695 [REDACTED]

Dear Mazda Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Mazda Motor Corporation has decided that a defect which relates to motor vehicle safety exists in certain 2009-2010 Mazda6 vehicles produced from February 4, 2008 through December 3, 2009.

If you are a recipient of this notice, your vehicle is included in this recall.

What is the problem?

On certain 2009-2010 Mazda6 vehicles, an internal component inside the sophisticated air bag sensor (SAS) unit may be susceptible to corrosion. If the unit fails, the air bag warning light will illuminate to alert the driver of the failure. Continued driving in this condition could prevent the air bags from deploying in a crash necessitating air bag deployment, increasing the risk of injury.

What will Mazda do?

Replacement parts for this recall repair are not currently available. When the replacement parts become available, Mazda will send you a second notification.

What should you do?

If the air bag warning light is not illuminated, you do not need to contact your Mazda dealer at this time. Please wait until you receive another notification from Mazda that replacement parts are available for the repair.

If the air bag warning light of your vehicle illuminates and stays on, please make an appointment with your Mazda dealer as soon as possible to have your vehicle diagnosed and repaired. If diagnosis confirms the air bag light is on as a result of SAS unit failure, the SAS unit will be replaced free of charge. However, if diagnosis confirms the air bag light is on due to a different issue, this recall will not address this condition. Your Mazda dealer will open a separate repair order to address that problem.

What if you already paid for repair or replacement of the SAS unit?

If you have already paid for repair or replacement of the SAS unit due to SAS unit failure, prior to receiving this notice, you may be eligible for reimbursement of reasonable repair expenses based on Mazda's repair standards. Please complete the enclosed "Reimbursement Application Form", include the necessary documentation, and mail it to us in the pre-addressed envelope provided, allowing 6-8 weeks for processing.

Where is the closest Mazda dealer?

To locate your nearest Mazda dealer, visit our web site www.MazdaRecallInfo.com or consult your local yellow pages.

Moved or no longer own this vehicle?

If you have moved or no longer own your Mazda vehicle, please complete and mail the enclosed postage-paid *Information Change Card* (no envelope required) as soon as possible. This enables us to update our records and notify the current owner.

Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

Still have questions?

If you have any questions regarding this campaign, please contact our Customer Experience Center toll free at (800) 222-5500, select option #6.

IMPORTANT SAFETY RECALL PRELIMINARY NOTIFICATION

PASSENGER Air Bag Inflator Replacement – Safety Recall 0717A

NHTSA 17V012

March 2017

This notice applies to your vehicle: 2009 Mazda MAZDA6 VIN 1YVHP82A695 [REDACTED]

Dear [REDACTED]

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Mazda Motor Corporation has decided that a defect which relates to motor vehicle safety exists in 2009 and 2012 Mazda6, 2007-2009 and 2012 CX-7 and 2007-2009 and 2012 CX-9 vehicles.

If you are a recipient of this notice, your vehicle is included in this Safety Recall.

What is the problem?

The defect in these recalled vehicles could result in serious injury or death. Specifically, in some vehicles, an inflator rupture could result in metal fragments striking the passenger or other vehicle occupants in the event of a crash that causes the air bag to deploy. This condition is more likely to occur if the vehicle had continued exposure to high levels of absolute humidity.

What will Mazda do?

Parts are not available at this time. When parts are available for your vehicle, we will send you another notification informing you to bring your vehicle to your Mazda dealer to have the passenger frontal air bag inflator replaced, free of charge.

Investigations conducted by the National Highway Traffic Safety Administration (NHTSA) and independent investigators have concluded that time, temperature, and humidity contribute to significant air bag propellant degradation, which can lead to high risk of inflator rupture in the event of a crash necessitating air bag deployment. Due to limited parts supply, this recall repair will be carried out in phases, with older vehicles in (or ever registered in) geographical areas with consistent high absolute humidity given first priority.

What should you do?

Please wait until you receive another letter from Mazda notifying you that replacement parts for your vehicle for this repair are available. ***Until this repair is performed, do not allow passengers to ride in the front passenger seat.*** If you have questions, or wish to discuss this situation further, contact your closest Mazda dealership.

Where is the closest Mazda dealer?

To locate your nearest Mazda dealer, visit our website www.MazdaRecallInfo.com, consult your local yellow pages, or call our Customer Experience Center (800) 222-5500, option #4.

Moved or no longer own this vehicle?

If you have moved or no longer own your Mazda vehicle, please complete the enclosed prepaid ***Information Change Card*** as soon as possible. This enables us to update our records and notify the current owner.

Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

Still have questions?

If you have any questions regarding this recall, visit our website www.MazdaRecallInfo.com. If you still have questions, contact our **Customer Experience Center at (800) 222-5500, option #6.**

If Mazda or its dealers do not repair the defect free of charge and within a reasonable amount of time, you may notify the Administrator of the National Highway Traffic Safety Administration, 1200 New Jersey Ave., SE., Washington, DC 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.
