

To NTMVS 24 July 2017
(NVS-210) CASE # [REDACTED] 2016 GENESIS
[REDACTED]

Phoenix, Arizona
[REDACTED] @

20 July - 4:00 pm ±

Traveling - I-10 East bound
Between Exit 173 Chieftaco Summit
And Exit 192 Desert Center
Highway had been resurfaced and
traffic was light - I came upon
traffic cones closing the right hand
lane - slowing to about 15 mph.
while leaving that area - the
vehicle would not accelerate -
I pulled the shoulder - and turned
off the car. A workman came by
from the road crew to offer assistance
- I explained - this had happened
before - and I was OK -
15 minutes - ~~he~~ passed - and the
vehicle - started - and operated
perfectly thereafter

Sincerely,
[REDACTED]
