APT. DENISE

SEPT. 19, 2017

REF# 11024233

AND LETTER FORM 10125117.

VOVO ALSO HAS REAR BUMPER SWAPPED IN PLACE AND WHEN
BACK-UP CAMERA STOPS WORKING, AFTER TRAINING YOU TO
USE SCREEN & SIDE MIRRORS (AND REAR VIEW MIRROR) IF THE
BUMPER IS HIT, IT FALLS OFF AND IS DRAGGED, HELD IN
PLACE BY LIGHTING WIRES: I'VE SEEN THIS ALSO HAPPEN
TO OTHER PEOPLE WHO DRIVE DOWN THE ROAD LIKE THAT
ON WAY TO REPAIR (I WOULD HAVE),

THE REQUEST FOR A FORM FOR A 1917 TOYOTA RAV4 LE
WILL ALSO NOTE THAT, AT START UP, 2 DIFFERENT MESSAGES
COME ON CENTER SCREEN (RADIO) SAYING SCREEN IS DETERMINING
AND SECOND MESSAGE TO OBEY TRAFFIC LAWS.... EVERY
TIME YOU START THE CAR; I ASKED TOYOTA TO TURN IT
OFF. THEY LISTED N/C ON RECEIPT BUT 2 MESSAGES
STILL COME ON

TOYOTA SERVICE ALSO CLAIMS HIGHWAY TEST TO REPLICATE
BRAKING PROBLEM DUE TO RADAR, AUTOMATIC BRAKING
AND REPAIR FORM SAYS THEY COULDN'T DUPLICATE THE
PROBLEM: MILEAGE IN WAS SAME AS MILEAGE OUT
(PRIME TOYOTA LUTHER, MASS.). SERVICE ALSO SAID THERE
ARE SENSORS BEHIND (OR IN) TOYOTA ~~OF~~ EMBLEM FRONT & REAR
I HAVE THEM COVERED; I BELIEVE SERVICE STATEMENT IS
RIDICULOUS,

THIS AUTO BRAKING RADAR SENSOR IS A PRECURSOR TO
SELF DRIVING CARS: TOO COMPLICATED, TOO DANGEROUS, TOO
GRABIC! ERRATIC!

TOYOTA VIN
