DOT and US Senators
I am dismayed the I have never gotten a follow up re Claim#[redacted]. I realize that my car is a rarity sibce so few were built with this harmful colored interior. That does not mean you can just ignore the safety of your citizens. I was delayed in getting back to you regarding this problem since I was taken ill and hospitalized in December and January with the flu which went into a semi-coma. I have just regaine enough motor and intellectual skills to writ you. I am now able to drive limited amount, however the severe glare is still there and Toyota refuses to acknowledge the problem. I am including photos showing the glare. Please at least have the courtesy to acknowledge that someone actually read the complaint. I await a respnse.
Yours sincerly
[redacted]
