Dear [REDACTED]

Thank you for your correspondence concerning your model year (MY) 2017 Ducati 1299 Panigale motorcycle. The National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation received your correspondence. Our office received an unprecedented increase in the number of correspondence in 2017. Our limited resources were overwhelmed and we are now just getting to your letter. We regret any inconvenience this delay may have caused you.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or motor vehicle equipment when our investigations indicate that they contain safety defects in their design, construction, or performance. We also monitor the completion rates and adequacy of manufacturers' recall campaigns.

We appreciate the report you provided. Reports from motorists are a very important source of information for us. We reviewed our database to identify whether a safety defect trend exists with regard to engine stalling in MY 2017 Ducati 1299 Panigale motorcycles. At this time, there is insufficient evidence to warrant opening a safety defect investigation. We did not identify any reports similar to the engine stall condition you experienced. If you have not done so already, we recommend that you schedule an appointment with your Ducati dealer to see if they can determine the cause of the stalling. The information you provided has been entered into our database. It will be considered with future reports to identify any safety defect trends that may require our attention. For your information, an explanation of NHTSA's investigation and recall process is on our website at [www-odi.nhtsa.dot.gov/recalls/recallprocess.cfm](http://www-odi.nhtsa.dot.gov/recalls/recallprocess.cfm).

Should you encounter a safety-related problem with a motor vehicle or motor vehicle equipment in the future, we would appreciate it if you would complete an electronic Vehicle Owner's Questionnaire online at [www.nhtsa.gov](http://www.nhtsa.gov) or call the Vehicle Safety Hotline

at 888-327-4236. Also, a summary listing of vehicle owners' complaints, safety recalls, manufacturers' service bulletins, etc. can be obtained at our website.

Sincerely,

A handwritten signature in cursive script that reads "Randy Reid".

Randy Reid, Chief  
Correspondence Research Division  
Office of Defects Investigation
