FRIDAY.  
JAN. 26, 2018.

I AM NOT A "HAPPY CAMPER"!!

I got this Notice in my mail on Friday, January 19, 2018.  
On Saturday, January 20, 2018, I called the Number shown on the notice: 1-855-271-0773.

I voiced that I did in fact have this type of Fire Extinguisher in my Travel Trailer.

I gave the person my Travel Trailer's VIN #:

5ZT2CXLB3FA [REDACTED]

It's a 2015 APEX/COACHMEN--25RBK.

I was given a "REF." #: [REDACTED] & was told that it would be shipped to my mailing address soon...

Well, as 1-week has gone by & NO Fire Extinguisher.

It's a KIDDE, Model #: FF2100-1.

Today, Friday, January 26, 2018, I finally got thru to the "Customer Service" of the above 'phone number & asked when I can expect my Replacement Fire Extinguisher. I was told: EITHER IN LATE FEBRUARY OR EARLY MARCH. This is "BULL CRAP" & is totally not acceptable to me. I go RV/Camping for at least 14-days every Month...so, what am I supposed to use for a Fire Extinguisher if something does happen?

Response??

This Notice applies to your vehicle VIN listed above.

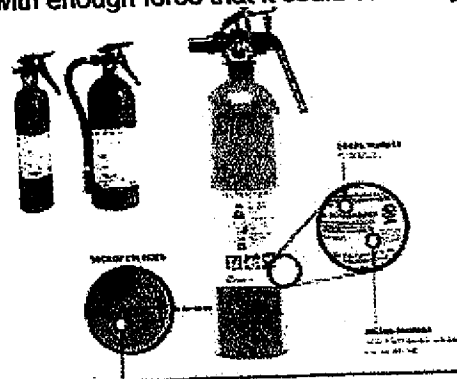

Dear Forest River Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Forest River has decided that a defect, which relates to the motor vehicle safety, exists in certain Model Year 2002 – 2018 Forest River vehicles. These vehicles may include a portable fire extinguisher manufactured by Kidde.

### WHAT IS THE CONDITION

Two models of Kidde fire extinguishers are impacted by this recall:

1. Fire Extinguishers with Plastic Handles: These fire extinguishers may become clogged or require excessive force to activate. According to Kidde, this may occur when the user depresses and quickly releases the lever. Additionally, the nozzles of these fire extinguishers may detach from the valve assembly. The nozzle may detach with enough force that it could cause injury and fail to discharge.

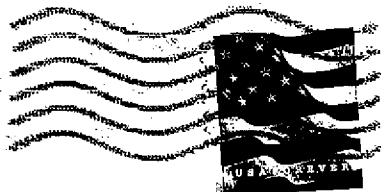

Mine is Model # FF2100-1.
