March 19, 2018

Dear Gentlemen

I am writing to update ODI# 11076924. I have called General Motors today and reported the incident with our 2017 Transverse on March 6<sup>th</sup>, 2018. The GM Case Number is [REDACTED]. The vehicle was checked for codes and there were none. I am 100% sure my foot was firmly planted on the brake, when the car motor revved up and went into the building.

The car is now in the repair shop. We probably get it back sometime this week.

I am a little leery to drive it again.

Sincerely, [REDACTED]

Atchison, Ks [REDACTED]
