I tried to bring my vehicle in for the recall several times. I was told the part was back ordered many times. Then in August of 2017 I was told I didn't need the part. The airbags did not go off when I was in an accident. After the accident I tried to bring the vehicle in again and was told I would have to pay 129 dollars to have them look at it. I don't feel I should have to pay for a problem with a vehicle that has a recalled part. I still do not have airbags.

I called the head corporation. They would not look at the vehicle unless I paid them. I also was mocked for not having their lifetime warrantee that cost about 4000. I did not get that because even when the vehicle was under warrantee they refused to fix anything on the car.

I was thrown forward in the accident and there was no airbag to stop me. At the time of the accident I was in shock and dizzy. I was having a stroke and didn't know who was around me or what I may have said to them. The next morning I woke up in pain. I had neck and back pain and pain in my hip. I was still dizzy and was seeing double. I have had thousands of dollars in medical bills. I can only walk a few feet without a walker. The damage to my body will never change.

This company will still not honor the recall. I feel they own me at this point. You can see from the pictures of the car that the airbags did not go off.
