Washington, DC 20590

Dear National Highway Traffic Safety Administration Representative:

Ford has notified me of an airbag recall issue with my 2006 Mustang but has not repaired the problem claiming they never have the corrective parts in stock (Enclosure 1). This lack of parts has lasted too long and I request the NHTSA require Ford respond why the delays continue and when the repair parts will be available. Please take action on owners behalf such as myself for our family members and others safety who ride in our affected vehicles. Thank you in advance for your consideration on this matter.

Safety Recall Notice 16S26 / NHTSA Recall 16V-384
Aviso de Revisión de Seguridad 16S26

2006 Mustang

Your Vehicle Identification Number (VIN): 1ZVHT84N665 [REDACTED]

In July 2016, Ford Motor Company sent you a letter announcing Safety Recall 16S26 – Passenger Airbag Inflator Replacement on your vehicle, with the VIN shown above. Since then, Ford has been developing remedy parts for your vehicle that do not contain ammonium nitrate, the chemical that has resulted in the safety recalls. This letter is to inform you that remedy parts have been delayed, and we are expecting remedy parts to become available for certain vehicles in the Spring of 2018. Ford will begin repairing vehicles as parts become available in the priority order established in the National Highway Transportation Safety Administration's Coordinated Remedy Order. You will be notified as soon as parts are available for your vehicle.

It is important that you schedule a service appointment for the free repair as soon as you are notified.

What is the issue?

On your vehicle, the passenger frontal airbag inflator may rupture in the event of a crash necessitating airbag deployment. A ruptured inflator may result in metal fragments striking vehicle occupants causing serious injury or death. Additional information regarding Takata recalls can be found at www.safercar.gov and owner.ford.com/Takata.

What should you do?

WARNING: Until remedy parts become available, do not allow anyone to sit in the first row passenger seat. The air bag inflator could rupture during deployment in a crash and cause injuries or death. When the front row passenger seat is not occupied, the passenger air bag will not deploy, eliminating the risk.

When parts are available to support 16S26, Ford Motor Company will send a letter to inform you that parts are available and to contact your dealer to schedule a repair.

What if you no longer own this vehicle?

If you no longer own this vehicle, and have an address for the current owner, please forward this letter to the new owner.

You received this notice because government regulations require that notification be sent to the last known owner of record. Our records are based primarily on state registration and title data, which indicate that you are the current owner.

Can we assist you further?

A REPAIR IS AVAILABLE FOR YOUR VEHICLE

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Ford Motor Company has decided that a defect which relates to motor vehicle safety exists in your vehicle, with the VIN shown above.

We apologize for this situation and want to assure you that, with your assistance, we will correct this condition. Our commitment, together with your dealer, is to provide you with the highest level of service and support.

What is the issue?

The passenger airbag inflator in your vehicle may explode in the event of a crash that causes deployment of the passenger airbag. If an inflator explodes, sharp metal fragments could strike the passenger or other occupants causing serious injury or death.

What will Ford and your dealer do?

Parts are now available to repair your vehicle. Ford Motor Company has authorized your dealer to replace the passenger airbag inflator free of charge (parts and labor).

How long will it take?

The time needed for this repair is less than one-half day. However, due to service scheduling requirements, your dealer may need your vehicle for a longer period of time.

What should you do?

Please call your dealer without delay and request a service date for Recall 16S26 to receive your free repair. Provide the dealer with your VIN, which is printed near your name at the beginning of this letter.

If you do not already have a servicing dealer, you can access www.Fordowner.com for dealer addresses, maps, and driving instructions. Ford Motor Company wants you to have this free safety recall completed on your vehicle. The vehicle owner is responsible for making arrangements to have the work completed.

Please note: Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

What if you no longer own this vehicle?

If you no longer own this vehicle, and have an address for the current owner, please forward this letter to the new owner.

You received this notice because government regulations require that notification be sent to the last known owner of record. Our records are based primarily on state registration and title data, which indicate that you are the current owner.

Can we assist you further?

If you have difficulties getting your vehicle repaired promptly and without charge, please contact your dealership's Service Manager for assistance.

RETAIL OWNERS: If you have questions or concerns, please contact our **Ford Customer Relationship Center at 1-866-436-7332** and one of our representatives will be happy to assist you. If you wish to contact us through the Internet, our address is: www.Fordowner.com.
