

Sir/Madam

CL-11150588-8611

NOV 08 2018

I have filed a defect for my 2014 Nissan Titan a couple of months ago and I am following up to see if any information was available. We have purchased the truck new in 2016 and only has 26,500 miles.

The vehicle is a 2014 Nissan Titan sv and vehicle identification # is 1N6AAOECXEN [REDACTED]

And my issue number I received is [REDACTED] when I filed the complaint.

Nissan corporate has admitted to us that they have found a bad brake booster causing us to lose the brakes on the truck causing an accident, hitting a fence & pole. This could have been a major tragedy had it happen on the roadways and not just pulling into a parking space..

Please provide me with an update.

Sincerely

[REDACTED]
