Re: Possible Safety Issue with 2018 Ford Fusion Hybrid

To Whom It May Concern,

On April 28 of this year my sister, [REDACTED] purchased a 2018 Ford Fusion Hybrid car (VIN 3FA6POLU2 [REDACTED] from Penske Ford in Chula Vista, California. On the evening of April 29th she was found dead, wedged between the driver's side door and the doorpost in the driveway of her mobile home at [REDACTED] Chula Vista, California. Elisa was leaning into the car. The engine was running and the car was in gear. It had rolled up against the steps of the mobile home.

On July 23rd, I retained Jeremiah Lowe of Gomez Trial Lawyers to represent the family in the issue of our sister's death. Mr. Lowe had the car evaluated for product safety. No discrepancy was found. Given that there were no witnesses and all safety features on the car worked as designed, we are all baffled that this tragedy occurred.

I thought it would be wise to inform your agency of this incident so that, in the event you see a pattern of similar events involving this make of car, you will know to take appropriate action.

Should you need more information the case number at the Chula Vista, California Police Department is [REDACTED]. The case number at the San Diego County Medical Examiner's Office is [REDACTED].

Sincerely,

[REDACTED]

PHOENIX AZ 852
