INFORMATION REDACTED PURSUANT TO THE FREEDOM  
OF INFORMATION ACT (FOIA), 5 U.S.C. 552(B)(6)

November 5, 2019

Miami, FL

NEF-109 rrr  
Ref. No. 11166040

Dear

Thank you for your correspondence concerning your model year (MY) 2018 Hyundai Ioniq vehicle. The National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation received your correspondence. I am pleased to respond.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or motor vehicle equipment when our investigations indicate that they contain safety defects in their design, construction, or performance. We also monitor the completion rates and adequacy of manufacturers' recall campaigns.

We appreciate the report you provided. Reports from motorists are a very important source of information for us. We reviewed our database to identify whether a safety defect trend exists with electrical problems in MY 2018 Hyundai Ioniq vehicles. We reviewed A/C, remote key fob, and instrument panel problems. At this time, we lack evidence to open a safety defect investigation or to initiate a recall. We entered your information into our database. It will be used with other reports to identify any safety defect trends that may require our attention. You can learn more about NHTSA's investigation and recall process on our website at [www-odi.nhtsa.dot.gov/recalls/recallprocess.cfm](http://www-odi.nhtsa.dot.gov/recalls/recallprocess.cfm). We recommend that you contact Hyundai or continue to work with your local dealer to resolve this matter.

Should you encounter a safety-related problem with a motor vehicle or motor vehicle equipment in the future, we would appreciate it if you would complete an electronic Vehicle Owner's Questionnaire online at [www.nhtsa.gov](http://www.nhtsa.gov) or call the Vehicle Safety Hotline at 888-327-4236. Also, a summary listing of vehicle owners' complaints, safety recalls, manufacturers' service bulletins, etc. can be obtained at our website.

Sincerely,

Randy Reid, Chief  
Correspondence Research Division  
Office of Defects Investigation
