Dear Ms. [REDACTED]:

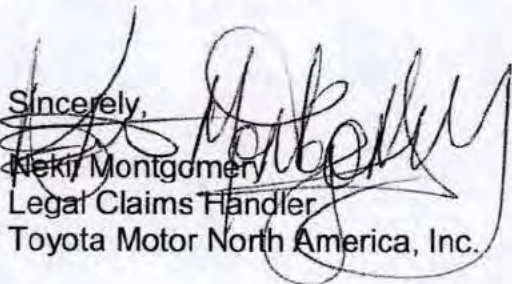

Thank you for contacting our Toyota Customer Experience Center regarding the incident reported on May 20, 2019.

Based on the information provided, you indicated that you were making a right turn and the steering started shaking. Your vehicle started to pull to the right and hit the curb. You were able to stop the vehicle and turn it off. After a few minutes it turned back on and you drove the vehicle home, and the steering started making noise and shaking again. As a result of your concern an inspection was completed on May 29, 2019 at Liberty Toyota. At the time of the inspection, the vehicle mileage was 111,118.

At the time of the inspection the steering vibration was not able to be duplicated. According to the CARFAX the vehicle was involved in an accident October 13, 2015 and damage was reported on March 23, 2016. A diagnostic system check showed that there were no diagnostic trouble codes relating to the operation of the vehicle.

We are sorry to learn about this unfortunate incident however at this time we are unable to honor offer any assistance with the claim. Thank you for allowing us to address your concern.

Sincerely,
