Ref. No. 11209966

Dear [REDACTED]

Thank you for your correspondence concerning your model year (MY) 2010 Dodge Caravan. The National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation received your correspondence. I am pleased to respond.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or motor vehicle equipment when our investigations indicate that they contain safety defects in their design, construction, or performance. We also monitor the completion rates and adequacy of manufacturers' recall campaigns.

We appreciate the report you provided. Reports from motorists are a very important source of information for NHTSA. We received a previous report from you regarding your vehicle problem through our www.nhtsa.gov website on May 25, 2019. Please note that when a motorist contacts NHTSA, their complaint does not automatically open a formal investigation by our agency. The information from your report was entered into our complaint database and reviewed by our staff to determine if a safety defect trend exists that may require our attention. NHTSA staff may follow up and contact a vehicle owner who submitted a complaint if we require additional information. Also, contacts initiated by our agency to obtain additional information do not automatically open a formal investigation.

We reviewed our database in an effort to identify whether a safety defect trend exists with regard to wiring harness problems in MY 2010 Dodge Caravan vehicles. At this time, there is insufficient evidence to warrant opening a safety defect investigation or to initiate a recall. The information you provided has been entered into our database. It will be considered with future reports to identify any safety defect trends that may require our attention. For your information,

an explanation of NHTSA's investigation and recall process is on our website at www.nhtsa.gov/sites/nhtsa.dot.gov/files/documents/mvdefectsandrecalls_808795.pdf. Should you encounter a safety-related problem with a motor vehicle or motor vehicle equipment in the future, we would appreciate it if you would complete an electronic Vehicle Owner's Questionnaire online at www.nhtsa.gov or call the Vehicle Safety Hotline at 888-327-4236. Also, a summary listing of vehicle owners' complaints, safety recalls, manufacturers' service bulletins, etc. can be obtained at our website.

Sincerely,

A handwritten signature in cursive script that reads "Randy Reid".

Randy Reid, Chief
Correspondence Research Division
