To Whom it may concern:

I am writing to inquire about how customers are able to receive compensation for a day of lost wages due to recalls on their vehicles. I am sure there is liability if a customer does not have vehicle corrected. I received my first letter December 2017. Went to Honda dealer and they did not have the part. I work 3 jobs to support my family as a single mother and received another letter April 2109. During this time frame I was not able to get the time to go. I took off work today June 11, 2019 to finally get the car recall corrected. I would like to know if you can lead me in the direction as to who I can contact to obtain reimbursement.

The above
