Re: VIN: KM8JU3AC4C [REDACTED]

My vehicle has been identified as a part of a recall by Hyundai. I got my notice and to my understanding there is no date for repair, yet I am being informed of the possible dangers of this problem if not repaired in a timely manner. What is a timely manner or a reasonable time? I am no certified mechanic and I do not have the money to repair anything regardless of a possible reimbursement. I have to go to work on a daily basis. I just need some type of mental relief about my vehicle. I fear that anything could happen especially when the manufacturers have no remedy or plan in place for situations of this nature. Is there anything else you can tell me that would help to relieve some of my tension in this situation? I look forward to hearing from you concerning this matter by way of my contact information listed above.

Sincerely,

[REDACTED]
