Re: 2019 Nissan Murano

Gentlemen:

I wish to bring a safety issue to your attention:

I have a new 2019 Nissan Murano – a great car but it has a design defect.

At the end of the hood, next to the windshield, it has a “lip.” On a sunny day, with the sun overhead, it catches the sun's rays and shines them right into your eye balls – not good; a safety issue!

I am not going to suggest what can be done, but this issue should be addressed.

Thank you for your time and consideration.

Sincerely,

[REDACTED]

P.S Please do not respond
by sending me all sorts of
forms to fill-out.

I have given you all of the
information. It is up to
you what you do with it.
