Dear Secretary Chao:

Consumer Reports issue February 2020, page 19, says "Mazda is recalling 116,932 vehicles: certain 2003-2008 and 2009-2012 Mazda sedans, 2004 Rx-8 Sports Car, and so on. These particular recalls are due to the failure of Takata Air Bags. This is another recall of many that Mazda has issued for the same problem.

Since I have a 2006 Mazda 3, the above statement "certain 2003-2008" recalls, caused me to call Mazda in California for clarification. The lady I spoke to on 12-26-2019, told me "my vehicle was not on the recall list".

There is no doubt in my mind that my 2006 Mazda has one of these defective Takata Air Bags installed ... just waiting to explode. When it goes off, I'll drop you a few more lines titled "I Told you so!", provided I'm still alive!

I remain, yours truly,

Venice, FL
