Ref. No. 11300931

Dear [REDACTED]:

Thank you for the letter about your model year (MY) 2020 Hyundai Elantra vehicle. Your letter was received by the National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation. I am pleased to respond.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or motor vehicle equipment when our investigations indicate that they contain safety defects in their design, construction, or performance. We also monitor the completion rates and adequacy of manufacturers' recall campaigns.

We appreciate the report you provided. Reports from motorists are a very important source of information for us. We reviewed our database to identify whether a safety defect trend exists with unintended acceleration and problems with the lane assist feature in MY 2020 Hyundai Elantra vehicles. At this time, we lack evidence to open a safety defect investigation or to initiate a recall. We entered your information into our database. It will be used with other reports to identify any safety defect trends that may require our attention. You can learn more about NHTSA's investigation and recall process on our website at [https://www.nhtsa.gov/sites/nhtsa.dot.gov/files/documents/mvdefectsandrecalls\\_808795.pdf](https://www.nhtsa.gov/sites/nhtsa.dot.gov/files/documents/mvdefectsandrecalls_808795.pdf). We recommend that you contact Hyundai or continue to work with your local dealer to resolve this matter.

If you encounter a safety-related problem with a motor vehicle or motor vehicle equipment in the future, please complete an electronic Vehicle Owner's Questionnaire online at [www.nhtsa.gov](http://www.nhtsa.gov) or call the Vehicle Safety Hotline at 888-327-4236. Also, owners' complaints, safety recalls, manufacturers' service bulletins, etc. can be reviewed on our website.

Sincerely,

A handwritten signature in black ink that reads "Randy Reid".

Randy Reid, Chief  
Correspondence Research Division
