RE: Exterior Lights Safety Recall, #11349065
18V582 (19V426), 20V404 (20V421)

Dear Ms. Collins,

This is a followup letter to my original correspondence Dated February 28, 2022.

The aforementioned letter was forwarded to your attention via USPS Certified Mail Service including a return precept. Though the post office tracking number verifies the delivery, the signed Return Receipt is yet to be delivered. The Postmaster is inquiring about the matter.

The aforementioned letter was also addressed to Mr. O'Leary the CEO of DTNA among others. I had also discussed the issues with an investigative media personality. However, chose not to copy the media at that time, as to avoid placing the spot light on NHTSA. This is not my first rodeo.

A couple of weeks after sending the letter to you, I came across the consent order issued by NHTSA for repeated violations of FMVSS by Daimler Trucking North America (DTNA). This is not a surprise considering I have been at logger heads with DTNA and Freightliner(FCCC) over a number of safety defects for more than five(5) years now. However, observing the exclusion of all the RV related safety defect from this consent order, is a surprise. Does the FMVSS not apply to RV's?
