DOT,

I haven't received any update from the complaint I filed in January 2021.
What is needed and what is the status of this safety issue?

FYI. I have personally completed the repair at my own expense.
However this safety issue from Mercedes Benz vehicles is a more widespread issue than publicly disclosed.
Is the department looking into this

I am written to bring awareness to a great concern and danger that Mercedes Benz is not addressing.

I own a 2010 Mercedes Benz S550V Vin: WDDNG7BB6AA[REDACTED] and every time I fill up my gas tank there is a strong fuel odor that completely engulf the interior of my car.

Please see attached PDF complaint form.
