To Whom This May Concern:

I wanted to follow up on this complaint. The issue that was identified was that the Brake Booster was sticking and causing a kick-back which was the tin can noise. I was able to record this action. This to me is a huge safety concern. I have attached the video demonstrating the issue so you can see if it is a more global issue. If you have any questions, please let me know. I can be contacted at [REDACTED]. Thanks!

Sincerely,
[REDACTED]
