NEF-109 ela
Ref. No. 11417672

Hicksville, NY

Dear [REDACTED]:

Thank you for the letter about your model year (MY) 2006 and MY 2010 Mercury Marquis vehicles. Your letter was received in the National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation. I am pleased to respond.

NHTSA is the Federal agency responsible for improving safety on our Nation's roadways. We are authorized to order manufacturers to recall and repair vehicles or motor vehicle equipment when our investigations indicate that they contain safety defects, such as in their design, construction, or performance. Among other activities, we also monitor the completion rates and adequacy of manufacturers' recall campaigns.

We appreciate the report you provided. Reports from motorists are a very important source of information for NHTSA. You requested information about whether your MY 2006 and MY 2010 Mercury Marquis vehicles have any open NHTSA Safety Recall Campaigns on them. We entered your vehicle identification numbers (VIN) into our VIN Look-Up Tool, and there are no open recalls on either of your vehicles (reports enclosed). In any event, we appreciate your diligence in this matter. We encourage you to check NHTSA's website at least twice per year for new safety recalls by entering your VIN into our Look-Up Tool at www.nhtsa.gov/recalls.

If you encounter a safety-related problem with a motor vehicle or motor vehicle equipment in the future, please complete an electronic Vehicle Owner's Questionnaire online at www.nhtsa.gov or call the Vehicle Safety Hotline at 888-327-4236. Also, you may review owners' complaints, safety recalls, manufacturers' service bulletins, etc., on our website.

Sincerely,

Randy Reid, Chief
Correspondence Research Division
Office of Defects Investigation
Enforcement

Enclosures

Vehicle Identification Number (VIN)

Every vehicle has a unique VIN. Enter a VIN to learn if a specific vehicle needs to be repaired as part of a recall.

2mebm7fv8ax

17/17

Looking for more information on this vehicle?

NHTSA offers more safety information based on a vehicle's year, make and model. Check safety ratings, recommended technologies and other safety issues.

2010

MERCURY Grand Marquis

Recall data refreshed on May 20,2021

0 Unrepaired Recalls associated with this VIN

What if my car isn't recalled now? Could it be recalled later?

Yes. Whether a manufacturer independently conducts a safety recall or NHTSA orders one, the manufacturer must file a public report describing the safety-related defect or noncompliance. Manufacturers are also required to notify owners by mail within 60 days of notifying NHTSA of a recall decision.

Look for this distinct label to distinguish critical safety recall information from other marketing material.

Where's my VIN?

Look on the lower left of your car's windshield for your 17-character Vehicle Identification Number. Your VIN is also located on your car's registration card, and it may be shown on your insurance card.
