Complaint no 11420930

Please add the following information to the assessment of whether to investigate and order a recall of the referenced RV.

Received notice today that another Regency unit had their driver's side taillight assembly hanging off on interstate 10. Were able to pull over and fortunately rescrewed the assembly back in and added tape. According to the post, it was the "maiden voyage" for the RV.

Tape, sealant, and/or Velcro are not solutions. A bracket needs to be fabricated to firmly hold the taillight assemblies in place. Thank you
