Snellville, GA [REDACTED]

NEF-109 ela
Ref. No. 11434014

Dear [REDACTED]

Thank you for the letter about your model year (MY) 2020 Hyundai Elantra vehicle. Your letter was forwarded to the National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation. I am pleased to respond.

NHTSA is the Federal agency responsible for improving safety on our Nation's roadways. We are authorized to order manufacturers to recall and repair vehicles or motor vehicle equipment when our investigations indicate that they contain safety defects, such as in their design, construction, or performance. Among other activities, we also monitor the completion rates and adequacy of manufacturers' recall campaigns.

We appreciate the report you provided. Reports from motorists are a very important source of information for NHTSA. Your MY 2020 Hyundai Elantra is affected by NHTSA Safety Recall Campaign No. 21V-301, which addresses a problem involving engine failures resulting in a stall and/or fire in certain MY 2019 through MY 2020 Hyundai Elantra vehicles equipped with 2.0L "Nu" MPI engines.

We entered your vehicle identification number (VIN) into our VIN Look-Up Tool, and it appears you have since received the repair—there are no open recalls on your vehicle (report enclosed). In any event, we understand your frustration with any delay you may have experienced, and appreciate your diligence in this matter. We encourage you to check NHTSA's website at least twice per year for new safety recalls by entering your VIN into our Look-Up Tool.

If you encounter a safety-related problem with a motor vehicle or motor vehicle equipment in the future, please complete an electronic Vehicle Owner's Questionnaire online at www.nhtsa.gov or call the Vehicle Safety Hotline at 888-327-4236. Also, you may review owners' complaints, safety recalls, manufacturers' service bulletins, etc., on our website.

Sincerely,

Randy Reid, Chief
Correspondence Research Division
Office of Defects Investigation
Enforcement

What if my car isn't recalled now? Could it be recalled later?

Yes. Whether a manufacturer independently conducts a safety recall or NHTSA orders one, the manufacturer must file a public report describing the safety-related defect or noncompliance. Manufacturers are also required to notify owners by mail within 60 days of notifying NHTSA of a recall decision.

Look for this distinct label to distinguish critical safety recall information from other marketing material.

Where's my VIN?

Look on the lower left of your car's windshield for your 17-character Vehicle Identification Number. Your VIN is also located on your car's registration card, and it may be shown on your insurance card.

What this VIN search tool will show

- An unrepaired vehicle affected by a vehicle safety recall in the past 15 calendar years
- Vehicle safety recalls from [major light auto automakers](#), [motorcycle manufacturers](#) and some [medium/heavy truck manufacturers](#)

What this VIN search tool will not show

- A vehicle with a repaired safety recall. If your vehicle has no unrepaired recalls, you will see the message: "0 Unrepaired recalls associated with this VIN"
- Manufacturer customer service or other nonsafety recall campaign
- International vehicles
- There may be a delay with very recently announced safety recalls for which not all VINs have been identified. VINs are added continuously so please check regularly.
- Safety recalls that are more than 15 years old (except where a manufacturer offers more coverage)
- Safety recalls conducted by small vehicle manufacturers, including some ultra-luxury brands and specialty applications
