Greetings,

I submitted a complaint on 11/27/21 regarding the fuel tank on my 2017 VW GTI. You did issue a recall for vins prior to mine but me and many others have had the same issues since the cut off vins in the recall. There have been several additional complaints since mine was filled.

To me and I have to imagine to NHTSA also this is a very serious issue. I've seen a video of a com-plaintive with NHTSA with gasoline spilling down from gas tank and out the garage door!

Has there been any further determination that VW needs to recall more of these vehicles?

Thank you for listening, [REDACTED]
