Dear Administration,

In

I have a 2020 Hyundai Kona with a bad part in the motor. The Piston Oil Rings were not high heat treated. It causes serious problems per NHTSA recall number 21v 301 Hyundai recall number 203. 2425 Industrail Highway Jack Giambalvo Phone 717 755 2944 Would not give me a new motor like Hyundai said they would. They did a vibration test that did not fix the bad part in the motor. Could you help me to get the SUV to the right way with the new motor and the bad part corrected.

THANKS
12/30/21
