To whom it may concern:
My ODI number is [11456544](#).

The concern is it not getting replaced either. I need to know what to do or do I need to file more and more. This is a safety issue. An issue where if I'm in an accident my headrest is not gonna protect me. A headrest is an important safety feature in the presence of an accident.

I cannot afford to pay out money on something that's got 100's of complaints filed. This has been a serious issue with Dodge/Chrysler for years, so why has this not been a recall or been pushed to get fixed to keep the drivers of these vehicles safe.

I am willing to fight. This needs to be replaced immediately.
