**Narrative Description of Incident(s), Crash(es), Injury(ies).**

Please describe (1) events leading up to the failure, (2) failure and its consequences, and (3) what was done to correct the failure; i.e. parts repaired or replaced (and if old part is available).

The contact owns a 2005 Nissan Armada. The contact stated that the fuel gauge inaccurately displayed the fuel level in the tank while the fuel tank was empty; causing the vehicle to stall. The contact refueled the vehicle and was able to restart the vehicle. The vehicle was not diagnosed nor repaired by an independent mechanic or dealer. The manufacturer was made aware of the failure and a case was opened. The manufacturer informed the contact that there was no recall associated with the VIN. The contact related the failure to NHTSA Campaign Number: 10V074000 (Fuel System, Other) however, the VIN was not included in the recall. The failure mileage was approximately 192,000.

Include, if available: Police/Fire Department Report, Photos, and Repair Invoice.
