The contact owns a 2021 Chevrolet Trailblazer. The contact stated that while outside the vehicle, the power liftgate opened and closed independently. The liftgate struck the driver on the head. The vehicle was taken to the local dealer but the vehicle was not diagnosed or repaired. The manufacturer was notified of the failure but no additional assistance was provided. The approximate failure mileage was 5.					
It close this all the time. when your pumping gas, in the back doors, or in and near the back of the car. It has come down on me twice hitting me in the head. REYMORE'S tech's have seening this right after I got the car. It seem to happen more on rainy days or winter. Very dangerous if holding a child in your arms. I have returned to my car and the gate opened
