

U.S. Department of Transportation
**National Highway Traffic Safety
Administration**

July 5, 2022

NEF-109 ela
Ref. No. 11468290

Dear [REDACTED]:

Thank you for the letter about your model year (MY) 2019 Harley-Davidson FLHR motorcycle. Your letter was forwarded to the National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation. I am pleased to respond.

NHTSA is the Federal agency responsible for improving safety on our Nation's roadways. We are authorized to order manufacturers to recall and repair vehicles or motor vehicle equipment when our investigations indicate that they contain safety defects, such as in their design, construction, or performance. Among other activities, we also monitor the completion rates and adequacy of manufacturers' recall campaigns.

We appreciate the report you provided. Reports from motorists are a very important source of information for NHTSA. We are aware of NHTSA Safety Recall Campaign No. 18V-734, which addresses a problem with the clutch experiencing an internal leak of hydraulic fluid past the secondary clutch actuator piston and seal in certain MY 2017 and MY 2018 Harley-Davidson motorcycles, including the FLHR.

Please note that recalls are very specific with regard to vehicle build dates, affected vehicle identification numbers (VIN), assembly plants, remedy procedures, and defective components. We know that under Recall 18V-734, only certain MY 2017 through MY 2018 vehicles were affected; therefore, your vehicle is not eligible for a free repair under Recall 18V-734. Harley-Davidson advised that motorcycles manufactured after these dates are not affected, as an updated secondary actuator piston and seal assembly was introduced at the start of production for MY 2019.

However, we entered your information into NHTSA's database, where it will be used with other reports to identify any safety defect trends that may require our attention. You can learn more about NHTSA's investigation and recall process on our website at www.nhtsa.gov/sites/nhtsa.dot.gov/files/documents/mvdefectsandrecalls_808795.pdf.

We encourage you to continue to work with Harley-Davidson and your dealer to explore the potential for an amicable resolution to your problem. You may also ask your dealership for a meeting with a Harley-Davidson district manager regarding your problem. You could consider contacting your local Consumer Protection Agency or the California Attorney General's Office regarding your problem and rights under state law.

In addition, the Federal Trade Commission (FTC) regulates and investigates warranty and dealership problems, reimbursement matters, and fair-trade practices. Therefore, if you believe this issue potentially relates to such a practice, you may contact the FTC to discuss the matter. There are three ways to contact the FTC: by toll free telephone at 877-382-4357; by mail at Federal Trade Commission, CRC-240, Washington, DC 20580; and by using the Internet complaint form at www.ftccomplaintassistant.gov.

Finally, you may also consider contacting the Better Business Bureau (BBB) Auto Line. The BBB offers free mediation/arbitration to resolve warranty disputes under guidelines established by the FTC. Remedies include repair, reimbursement, repurchase or replacement, depending on program eligibility. You can visit their website at www.bbb.org to file a complaint and review eligibility information or call the BBB Auto Line at 800-955-5100.

If you encounter a safety-related problem with a motor vehicle or motor vehicle equipment in the future, please complete an electronic Vehicle Owner's Questionnaire online at www.nhtsa.gov or call the Vehicle Safety Hotline at 888-327-4236. Also, you may review owners' complaints, safety recalls, manufacturers' service bulletins, etc., on our website.

Sincerely,

A handwritten signature in cursive script that reads "Randy Reid".

Randy Reid, Chief
