

ACCIDENT INFORMATION EXCHANGE FORM

NY State Law requires that any accident resulting in a fatality, injury or damage to property of any person (including damage to your vehicle) or entity over \$1000 be reported by YOU to the Department of Motor Vehicles (DMV) within 10 days after an accident. Failure to report an accident or failure to give correct information is a misdemeanor and may result in the suspension/revocation of your driver's license (or operating privilege in NYS) and all vehicle certifications or registrations.

Report your Accident to DMV on DMV form MV-104 (Report of Motor Vehicle Accident). Police Accident Reports (DMV form MV-104A) DO NOT satisfy YOUR civilian reporting requirement.

Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has decided that certain Model Year ("MY") 2018-2021 A-Class, C-Class, CLA-Class, CLS-Class, E-Class, GLA-Class, GLB-Class, GLC-Class, GLE-Class and GLS-Class vehicles fail to conform to Federal Motor Vehicle Safety Standard No. 111, "Rear Visibility." Our records indicate that your vehicle is included in the affected population of vehicles.

What is the concern?

The function of the rearview camera might be impaired where the rearview image might not be displayed in the central display after reversing. Instead, the central display would continue to display the existing image or display a black screen with a message indicating the inoperability of the rearview camera system. In addition, the rearview camera image neither freezes nor deactivates. As the vehicle begins to back up, a rearview camera image under these conditions might impair rear visibility which could increase the risk of a crash. When the issue occurs, the driver might notice that the central display would either continue to display the existing image or display a black screen with a message indicating the inoperability of the rearview camera.

Unfortunately, the parts to remedy this are not yet available.

We are working to obtain the necessary parts to correct this condition as quickly as possible. As parts become available, we will send you another letter asking you to take your vehicle to an authorized Mercedes-Benz dealer to have the recall completed free of charge.

An authorized Mercedes-Benz dealer will update the software of the rearview camera to current production specifications.

Should you have any concerns or questions regarding your vehicle before you receive the next recall letter when parts are available, please contact an authorized Mercedes-Benz dealer.

If for any reason a dealer is unable to remedy your situation, we are always happy to hear from you. Please contact us at 1-800-367-6372. A vehicle identification number (VIN)-based recall lookup tool on our MBUSA.com website offers a search function that will indicate whether a vehicle has been subject to a safety recall, and whether that vehicle has had the free remedy performed. Please visit www.MBUSA.com/recall.

We apologize for any inconvenience this may have caused and look forward to taking care of this important safety issue immediately.

Sincerely,
Mercedes-Benz USA
