The contact owns a 2011 BMW 328i. The contact received notification of NHTSA Campaign Number: 22V119000 (Engine and Engine Cooling) however, the part to do the recall repair was not yet available. The local dealer was contacted. The contact stated that the manufacturer had exceeded a reasonable amount of time for the recall repair. The manufacturer was made aware of the issue. The contact had not experienced a failure. VIN tool confirms parts not available. In April 2022 I received "Important Safety Recall Notice" from BMW - Campaign Recall No. 22V-119 PCV Valve Heater. The letter indicates my "Vehicle needs to have remedy performed". It also says the faulty valve "Could lead to fire", and "Call 911 if I see vehicle smoke". I contacted BMW in June 2022, told the remedy available in summer 2022. To date no letter approving fix.					
Include, if available: Police/Fire Department Report, Photos, and Repair Invoice.
