case [REDACTED]

I have received 4 emails. Some don't make sense. Yes, I do have additional information. I now have convincing evidence that Acura has covered up their AWS steering issues from 2014 to 2016. I need an investigator to contact me so I can relay and walk him/her through the information.

Please note that I am not some fly by night. I am a 30 year retired police Lieutenant who supervised the Criminal Investigations Bureau for 7 years. The info I have is clear and concise that Acura has time bombs driving on the street that they are not taking action to repair.
