Narrative Description of Incident(s), Crash(es), Injury(ies). Please describe (1) events leading up to the failure, (2) failure and its consequences, and (3) what was done to correct the failure; i.e., parts repaired or replaced (and if old part is available). The contact's husband owns a 2007 Toyota Camry Solara. The contact stated that her daughter noticed cracks on the dashboard nearby the glove box above the passenger's side air bag housing. No warning lights were illuminated. The vehicle was not diagnosed. The vehicle was not repaired. Neither the dealer nor the manufacturer was notified of the failure. The failure mileage was approximately 80,000. We are uncertain on the airbag efficiency. There are no warning lights illuminated - but the dashboard cracks on the passenger side are significant. Concern is in an airbag failure.			
Include, if available: Police/Fire Department Report, Photos, and Repair Invoice.
