The contact owns a 2003 Saturn L200. The contact stated that while his wife was driving 45 MPH, an abnormal whirling sound was coming from the vehicle and the vehicle stalled without warning. The contact's wife was unable to restart the vehicle and with the assistance of a police officer, she coasted the vehicle off to the shoulder of the roadway. The vehicle was then towed to an independent mechanic where the vehicle was diagnosed with a defective timing chain which resulted in engine failure. The dealer nor the manufacturer had yet to be notified of the failure. The vehicle had yet to be repaired. The failure mileage was unknown.

Include, if available: Police/Fire Department Report, Photos, and Repair Invoice.
