Narrative Description of Incident(s), Crash(es), Injury(ies).					
Please describe (1) events leading up to the failure, (2) failure and its consequences, and (3) what was done to correct the failure; i.e., parts repaired or replaced (and if old part is available).					
The contact owns a 2019 Hyundai Elantra. The contact stated while driving 10-15 MPH, the vehicle stalled inadvertently. Several unknown warning lights were illuminated. The contact was unable to veer to the side of the road. The contact was able to restart the vehicle and continued driving. The contact stated that the failure reoccurred intermittently while driving and slowing down. The vehicle was then taken to the dealer where it was diagnosed that the engine and the timing chain needed to be replaced. The vehicle was then taken to an independent mechanic where it was diagnosed that the failure was related to NHTSA Campaign Number: 21V301000 (Engine). The manufacturer was notified of the failure and informed the contact they could not assist as he was the second vehicle owner. The failure mileage was approximately 76,000. IN ADDITION THE ENGINE'S LEAKS OIL FIRE RISK THE DAMAGE TO THIS VEHICLE IS THE SAME AS THE NHTSA RECALL BULLETIN REFERENCE # 21V301000					
Include, if available: Police/Fire Department Report, Photos, and Repair Invoice.

Huffines Hyundai Plano Service Commitment

Excellence at every turn... and every straightaway

Our dealership's primary goal is to satisfy every customer at every opportunity. You visit our service department regularly, and we have developed a number of ways to make your visit more comfortable and informative. We know that you want straight answers, and that's the only way we will deliver it to you.

We understand that your knowledge of your vehicle and its necessary repairs is probably not on par with the understanding that your technician has. In order to be sure that his findings and reporting is as clear and concise as possible, we use this Vehicle Information Booklet as a tool to help us communicate your vehicle's condition to you.

Our technicians are the most qualified to work on your vehicle. They have trained extensively, and partake in continuing education regularly to be sure that they are up to date on any changes and improvements handed down from the manufacturer. Our service advisors strive to make your experience with us a pleasant one. They are here to attend to your automotive needs as well as communicate effectively with your technician and you.

Please make yourself comfortable in our waiting area. Watch some TV, use your laptop with our free WI-FI access or just relax and enjoy the quiet. Our courtesy shuttle can take you shopping, to a movie or home if you prefer.

We appreciate your business and will continue to strive for excellence in everything we do for you.

Initial Concerns

■ Red: requires immediate attention.

The service(s) listed below are the recommendations made by your technician **Gammond M** as the repair necessary to resolve your initial concern.

Yellow: in need of attention soon.

Timing Cover Gasket: CVVTS,TIMING CHAIN,TIMING CHAIN TENSIONER,CAMS,TIMING COVER

Item Description

The timing cover gasket is used to seal the mounting area of the timing cover to the cylinder block. The timing cover gasket prevents dirt and debris from getting in to the timing cover.

Reason

If the timing cover gasket is broken or damaged then you could get dirt and debris in your timing cover. The dirt and debris can lead to damage of other vital timing components.

Engine Rebuild/Replace

Item Description

This is the entire process needed to either rebuild or replace the vehicle's engine. This is a process needed when the vehicle's engine is in need of serious repair.

Reason

Without replacing or rebuilding a damaged engine, the car will not be able to function and will be left useless.

Additional Service Recommendations

■ Red: requires immediate attention.

In the process of inspecting your vehicle for safety and reliability, your technician **Gammond M** made the following observations and recommends that you do the necessary repairs to resolve these issues.

Yellow: in need of attention soon.

Brake Job - Front (Replace Pads/Resurface Rotors)

Item Description

Brake pads are the parts of a car's braking system that actually take the brunt of the frictional force necessary to stop the car. In a disc brake system, the brake pedal activates a hydraulic line which squeezes calipers against the rotors of the car's tires. Brake pads are positioned between the calipers and the rotors to absorb the energy and heat, and then provide enough grip to stop the car. Brake pad material wears out over time. Brake pads should be periodically inspected for wear, which is highly variable depending on vehicle weight and driver habits.

Reason

Brake pads must be replaced before the friction material is worn away completely. If it isn't, metal-to-metal contact will occur between the brake rotor and the worn-out brake pad. If metal-to-metal contact occurs, the brake rotor will be damaged, and it will need to be resurfaced or replaced. When the pads are replaced, the rotor must be resurfaced smooth to allow the new pads to have an even contact surface to work with. Only a small amount of material can be machined off of a rotor before it becomes unusable and must be replaced.

Ending Date of Manufacture: 1900 JAN

SYSTEM

ENGINE

DESCRIPTION OF DEFECT

Hyundai Motor America (Hyundai) is recalling certain 2019-2020 Elantra, 2019-2021 Kona and Veloster vehicles equipped with 2.0L Nu MPI engines. The piston oil rings may not have been properly heat-treated, which could result in engine damage.

CONSEQUENCE OF DEFECT

A damaged engine may stall, increasing the risk of a crash. In addition, oil may leak onto hot exhaust components, increasing the risk of a fire.

CORRECTIVE ACTION

Dealers will inspect and, if necessary, replace the engine, free of charge. In addition, Hyundai will deploy Piston Ring Noise Sensing System (PNSS) software. Owner notification letters were mailed August 24, 2021. Owners may contact Hyundai customer service at 1-855-371-9460.

NOTES

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

ADDITIONAL INFORMATION

The National Highway Traffic Safety Administration operates Monday through Friday from 8:00 AM to 4:00 PM, Eastern Time. For more information call (800) 424-9393 or (202) 366-0123. For the hearing impaired, call (800) 424-9153.
