NEF-109 ela
Ref. No. 11500766

Belleville, MI

Dear [REDACTED]:

Thank you for your correspondence concerning your model year (MY) 2018 Ford Edge vehicle. The National Highway Traffic Safety Administration's (NHTSA) Office of Defects Investigation received your correspondence.

NHTSA is the Federal agency responsible for improving safety on our Nation's highways. We are authorized to order manufacturers to recall and repair vehicles or motor vehicle equipment when our investigations indicate that they contain safety defects in their design, construction, or performance. We also monitor the completion rates and adequacy of manufacturers' recall campaigns.

We have reviewed the information you provided and entered it into our database. It will be used with other reports to identify recall inadequacies or safety-related defect trends that require our attention. NHTSA staff may follow up and contact vehicle owners if we require additional information. You can learn more about NHTSA's investigation and recall process on our website at www.nhtsa.gov/sites/nhtsa.dot.gov/files/documents/mvdefectsandrecalls_808795.pdf.

To determine whether a vehicle has been recalled, NHTSA's free vehicle identification number (VIN) Look-Up Tool searches for open recalls via a direct connection to the manufacturer's database (www.nhtsa.gov/recalls). You can find the VIN on the door label, insurance card, or lower left corner of your windshield. Enter your 17-character VIN into the search box on our website above. If you have any open recalls, you will know immediately. At this time, the database indicates that there are no outstanding recalls on your vehicle (report enclosed).

Motor vehicle and motor vehicle equipment information can be found on our Internet website at www.nhtsa.gov. This site provides information concerning motor vehicle recalls, manufacturers' service bulletins, complaints from vehicle owners, etc. If you encounter a safety-related problem with a motor vehicle or motor vehicle equipment in the future, please complete an electronic Vehicle Owner's Questionnaire online at www.nhtsa.gov or call the Vehicle Safety Hotline at 888-327-4236.

Sincerely,

Randy Reid, Chief
Consumer Engagement Division
Office of Defects Investigation
Enforcement

Year: 2018 Make: FORD Model: Edge
Number of Open Recalls: 0

Additional Safety Information

Besides the VIN search tool you just used, NHTSA offers additional safety information based on a vehicle's make, model, and model year and not tied to any particular VIN. A search by vehicle make, model, and model year gives you access to information about technical service bulletins, NHTSA investigations, and owner complaints, as well as safety recalls on aftermarket equipment that is often not linked to a particular VIN or even to your vehicle's manufacturer.

To search NHTSA's safety information based on your vehicle's make, model, and model year, please go to the [Safety Issues & Recalls](#) section and follow the instructions there.

Recall information for this manufacturer is only available going back to January 01, 1999. If your vehicle was manufactured before this date, please contact the manufacturer for possible additional recall information.
