I've already registered a safety issue with NHTSA. Tracking Number: [11511180](#).

The exact same thing happened again to me yesterday and I almost got rear-ended by a car going 30+ mph and Honda is telling me to get a video. I'm not sure how I can take a video of something I don't know is going to happen or take a video while I'm trying to restart my car on a busy road!

Can I file a second report even if it's the same issue?

Thank you,
